RIGHT TO USE OF STREETS AND ALLEYS DECIDED BY LOCAL DISTRICT COURT IN SEWER COMPANY'S BILL FOR SERVICE

The decision of Judge Averill in the case of the Tonopah Sewer and Drainage company vs. the Tonopah Mining company, which was announced in Friday's Bonanza, contains a review of the conditions involving the right of the property owners of the camp to the use of the streets and alleys and that part is given in full, as follows:

"The most important question of fact for decision in this case is whether there ever existed a written contract, agreement, or franchise for rights of way, given by the Tonopah Mining company of Nevada to the Tonopah Sewer and Drainage company, in return for which rights of way, the latter company was to receive free sewer service.

"One witness, Mr. Platt, testified positively that there was such a contract, and that he saw it and had it in his possession for a long time. Mr. Lack testifies just as positively that no such contract was ever entered into. Mr. Platt's testimony of the contents of the instrument and the method of signing is somewhat confused and not in accord with the 'proposal' hereafter referred to. Mr. Chickering was very much inclined to think that there was such a contract, but failed to testify that he had any definite recollection that he saw it, though, by way of argument with himself, he concluded he had seen it, basing this conclusion on acts of his own that he thinks must have been predicated upon a reading of the document. His idea of its contents was vague, of course. A large number of witnesses testified that they believed it existed because of mention of it by Lack and others. All this is fairly well explained by Lack's testimony. The contract was not produced and no record of it, office or other, was offered in evidence.

"My conclusion from the evidence is that no such written agreement was ever executed, though an effort was made to secure one from the Tonopah Mining company in which both Lack and Chickering took part; that there was much discussion of it and its terms; and that the negotia-

CINEMATOGRAPH DEFIES ORDER OF BERLIN COURT

(By Associated Press.)
BERLIN, June 30.—Invention is about to mock the decree of a Prussian court which some three years ago made permanent an injunction restraining the famous Felix Weingartner from conducting an orchestra within a radius of thirty miles of Berlin. The local admirers of Weingartner, who gladly have been making the pilgrimage to Furstenwalde, a city just outside the forbidden circle, to see their idol conduct, are to see him again in Berlin concert halls leading an orchestra. He will not be present in flesh and blood, but by means of the cinematograph, his animated picture will actually direct the orchestra.

The banishment of Weingartner came about through proceedings brought against him by Count Von Hulsen-Haeseler, director of the Royal Opera house, for breach of contract. Friends who shared his indignation suggested the idea of bringing the famous conductor back to Berlin on a moving picture film, but the cinematograph firms declared that technical difficulties of synchronization were insuperable. Eventually, however, experiments were made, employing one of the city's well known orchestras, which was led by Weingartner's picture. Weingartner Nikisch and other prominent conductors witnessed the experiments and declared them a complete artistic success.

The narrow canvas is stretched over the conductor's stand, and the audience sees him back, while his face is turned toward the orchestra, making the illusion complete.

The idea makes it possible for the conductor himself to study his own picture and experiment until he secures an ideal manner of directing. It will also make it possible for millions of music lovers to see the work of a conductor whom they might not otherwise see, and it will preserve for future generations every gesture of these masters of their art. As Nikisch says: "What tremendous value it would have for this generation if it could see and hear how Richard Wagner conducted the notable presentation of the Ninth symphony in Bayreuth in 1872."

A store that advertises must be a store of values—of "bargains"—or the advertising would not pay.

DANGER OF RADIUM STIRS DISCUSSION AMONG SCIENTISTS

(By Associated Press.)
BERLIN, June 1.—The dangers attending the use of radium are receiving quite as much attention in Germany as the curative value of the substance.

At a recent congress on diseases of the internal organs, at Wiesbaden, Professor Werner, of Heidelberg university, declared that the difficulty of confining radium treatment to the diseased tissue made the use of radium dangerous in the treatment of cancer and other tumors. Instances had been noted where the radium attacked and destroyed healthy tissue and where perforations and bleedings followed. Ill effects were also sometimes caused if the diseased tissue treated by radium could not be removed. Poisonous changes might occur with fatal results. With cancerous growths in the mouth, larynx and throat, Professor Werner seldom found any permanent improvement through radium. Satisfactory results were obtained, however, in treating tumors of the throat, and some were completely cured. There was also some improvement in diseases of the bladder, but no permanent cures. Tumors of the spleen, on the other hand, were most effectively treated with radioactive substances.

Professor de la Camp, of the University of Freiburg, reported at the same meeting that patients with tumors of the lungs had died after treatment by radium.

At a meeting of specialists for ear and throat diseases, held at Cologne, Dr. Cronenberg, the chairman, pointed out that while the association had not rejected radium, the experiments reported by various speakers had shown negative results. The treatment of deafness was discussed particularly and the reports were in the same negative category.

ADVERTISED LETTERS.

F., Whalen, J. J., Wuolle Sam.

NOTHING LEFT BUT DEBTS.
It is said that fewer potatoes will be grown in the Caribonde county and throughout Garfield county than in former years, owing to the low price of spuds the past year and the probability of a still poorer market as the Democratic free trade doctrine gets in full swing. With the beet sugar industry ruined, with the spud market all shot to pieces and with eggs coming in by shipload from Asiatic countries, it seems that our Democratic lawmakers don't intend to leave us much of anything—except our debts. We must not forget that we still have our debts.—Glenwood (Col.) Post.

OUR JOB PRINTING DEPT. CAN SUPPLY YOUR WANTS

Loose Leaf work of every description. We have our own ruling machine and can furnish you promptly Ledgers, Cash books, or any kind of record books, ruled to suit your requirements.

Book Binding—the kind that opens flat and wears for years.

Special Ruled Blanks—just the way you want them.

Booklets and Folders.
